## B. Aires Rowing Club.
Regatta 1881.

The annual Regatta will take place on Tuesday next 1st November at the Tigre.

The Committee have much pleasure in informing members, their friends, and the public, that, in place of a steamer, they have secured the exclusive use of the 'Alameda' Grounds connected with the Government Slip on the Lujan River, which stretch for some distance along its bank, thus affording an excellent view of the course.

A special train will leave the Central Station at 10.35 a.m. returning from the Tigre at 6 p.m., calling only at Retiro and Belgrano each way. Return-Tickets $ 34 m/c, available also for the ordinary trains, which leave the Tigre at 3 p.m., 4.30 p.m., 6.50 p.m., and 8.45 p. m.

A steamer has been engaged to convey passengers by the special train to the Grounds.

Tickets for the Steamer and Grounds can be obtained on and after Tuesday, 25th inst. from Mr. A. G. Tupper 277 Cangallo, Libreria Mackern Florida 137 and the undersigned, at the following prices:

Ladies $ 10, Members $ 20, Non-members $ 30 and programmes can be obtained at same places on and after Friday.

Luncheon will be provided in tents on the Ground by Mr. J.C. Kramer Börsenhalle at $30 each person, and no luncheon baskets will be allowed on the Ground.

No person will be admitted on to the Ground unless provided with the necessary ticket.

TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From MR. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

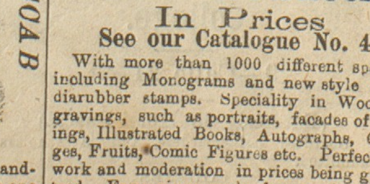

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."

From Messrs Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fullly determined for the future to use no other remedy."

WARD & PAYNE'S
Sheep Shears
OBTAINED
THE ONLY GOLD MEDAL
For Sheep Shears
AT THE
INTERNATIONAL
Exhibition
MELBOURNE
1881.

Ward & Payne's Shears No. 100 and 125 are very much improved and manufactured specially for this country.

They are made of the best steel and in price and quality will compare favourably with any others in this market.

They can be had direct from the importers J. MOHR BELL & Co. or through all Hardware dealers.

Facts worth knowing

1—During last season the demand for WARD & PAYNE'S Shears in Australia was so excessive that cable messages were continually being sent for increased supplies.

2—Single pairs of WARD AND PAYNE'S Shears clipped 3,000 heavy woolled sheep, and the most expert clippers in New Zealand affirm that they can clip nearly 10 sheep per day more with these Shears than with any other.

3—WARD & PAYNE are introducing two new Patent Shears No. 200 and 'The Equalizing Spring' for which they claim superior advantages. The undersigned will be glad to forward sample pairs on application.

4—Testimonials from Australia, N. Zealand and the RIVER PLATE can be seen at the Office of the undersigned

Madrid, 24th

Finance Minister has presented Budget to Cortez; he proposes great financial organic changes, especially in reference to unifying the Public Debt, and shews a surplus of 346,000 pesetas in receipts over expenditure.

## THE CHILIAN TREATY.

The letters we give at foot will form an agreeable protocol to this memorable treaty. General Osborn merits not only the thanks of the Chilians and Argentines for his most successful part in the negotiations, but deserves from his own country the highest reward, identifying, as he has done, the United States with a treaty that secures peace and happiness to two sister republics and upon terms which no ulterior diplomacy can ever move or disturb.

The eminent success of the American Ministers in bringing about this treaty, and the growing desire in the great cities and marts of the United States to push a trade with South America, all plainly point to a new commercial departure in these countries with the U States. We believe that in five years hence our trade with the U States will be more than double what it is at present.

The seals of the treaty were engraved in the States, and affixed by its Minister, and this happy treaty will, in all probability, prove the groundwork of better and closer trade relations with our American cousins.

We have seen in Europe the most terrible wars provoked by disputes or questions of less magnitude than that which General Osborn, by his admirable tact, has solved. Had the General negotiated terms between two European powers and saved both nations from a war, as he has done here, all Europe would ring with his name, and even Bismarck would be outdone; yet the fortunes of humanity are the same whether on the banks of the Pruth or the Plate.

The treaty which General Osborn drafted and which is now ratified by both countries, will last for ever, because it is just, it is equal, and it is right; the limits laid down in that treaty are not artificial, but marked by nature, and the genius of the American Minister in catching at those great land marks is as transparent as his friendship for Argentines is obvious in working so untiringly to save us all from a war that South American diplomacy so long threatened us with.

U. S. Legation,
Oct. 22d 11.30 p.m.

My dear Minister.

Allow me to offer you my most cordial and sincere congratulations on the final approbation, by the representatives of both countries, of the treaty which is the crowning and most glorious work of your life.

It is said that republics do not know tho meaning of the word gratitude. It may be so: but henceforward the two nations can never forget or cease to feel grateful for what you have done for them in one year of patient work and careful thought.

Be assured that my Government and the people of the U. States will speedily endorse this well-merited recognition of the honour due to you for the glorious peace and prosperity that must inevitably result from your great achievement.

I shall take the earliest opportunity of calling on you in person to present my respects and renew my congratulations.

Your very sincere friend
*Thomas O. Osborn.*

Buenos Aires, Oct. 22d.

My dear Minister

A thousand thanks for the very kind note you have sent me. I prize it extremely and will always keep it as a proof of your friendship. The cordial feelings you express for myself and the kind view you take of the part I have had in arranging the Boundary Treaty with Chile, are highly flattering to me.

If the Treaty of July 23d assure peace and reknit the bonds that have bound both nations together since they achieved their Independence, as I firmly believe it will, very much of such a happy consummation for the civilization and progress of this part of America will be due to you.

We have both contributed something to the work you so justly call good—I by carrying out the instructions of the President, and you by so worthily interpreting the policy of the Government of the United States. I am already rewarded by the approval of my Government, my countrymen, and public opinion in general.

As for you, my highly esteemed friend, it is a source of extreme pleasure to me that your honoured name is linked with the International deed of July which restores peace between two peoples who are alike neighbours and brothers.

Your most sincere friend
*Bernardo de Irigoyen.*

## DR. WILDE'S REPORT.

The money collected for the supply of water in the houses has given the most satisfactory results, representing 98½ per cent of the total amount due. The 1½ per cent due has been carried forward into the accounts of this year, in which, it is satisfactory to state, the results will be excellent. The collection is effected every three months in ad-

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Main

vance: the people have become accustomed to the system, and the Committee has reason to be congratulated on the establishment of same.

Last year, water supply was granted to 449 houses, whilst that of 341 houses was suspended, owing to non-payments: the latter, added to former figures for analogous motives, make a total of 672 houses, wherein the water supply has been suspended. Last year the number of houses provided with water was 5,725, yielding on an average per month each $69 m|c. At the present date the number is 6,085, and the average monthly yield of each is $70 9. Whilst lately revising the list of houses with water supply, it was found out that 113 houses were provided with water, without consent or knowledge of the Board of Management. The fraud involved 196 702$ m|c, and up to the present the collection of 149,323$ m|c on this account is matter of discussion. This is the moment to point out the want of a law defining the faculties of the Committee, in the management, disposition and preservation of the interests and works in charge, thus cutting short a difficult situation that often involves arbitrary conduct or protracted proceedings, to save interests and attend to public wants.

Owing to the suspension of payments of Mr C F Getting at the end of the year 1880, the Committee proposed to Messrs Baring Bros. of London, to represent the Committee in London, and the Committee has every reason to be satisfied at the choice.

In the beginning of this year the Committee settled a question of the greatest importance, and one that might have collapsed into a lawsuit, owing to the ambiguous character it presented.

According to a contract, the committee was under obligation of receiving from Messrs Newman, Medici & Co, all the materials that were intended for the continuation of the works, after a previous scrutiny and classification by a committee for the purpose.

This committee and the previous one had understood that only those materials should be accepted from these gentlemen that were to be applied to the continuation of the works. Meanwhile, Messrs Newman, Medici & Co. maintained that all the materials they possessed as contractors should be applied to these works. The present committee consulted several members of the previous one and the lawyer of the business, and arrived at an equitable arrangement, thus avoiding a long and doubtful lawsuit. A fiscal liquidation of accounts was drawn up, in which there remained in favor of Messrs Newman, Medici & Co. a balance of $4,554,394: the Government is earnestly requested to effect this payment.

Many other minor, but disagreeable questions, well settled finally at the same time.

Sr Don Ambrosio Lezica, enjoyed by transfer from Messrs Newman, Medici & Co, a credit against the committee of $125,000.

D. Bernabe Font also had a similar one to the amount of $28,690.

Both the above amounts were paid. An old account of $102,253 of the committee with the Northern Railway was also closed.

## THE COLORADO CAMPS.

*(Concluded.)*

Let me return to the river side. The survey brought me farther out to the west than where the President's expedition to the Rio Negro had passed, and here changed the aspect of the river. The northern side gets very hilly, the southern side mountainous. By and by the whole country changes into mountains of a bright, red colour, porphyry and it is very likely that the river takes its name from the colour of these mountains. They are very steep and high, and enclose the river in a narrow gauge. Cataracts and falls abound—huge abutments and piers of natural bridges appear at every bend. On the southern side vegetation has ceased: the northern side is green. I saw here several flocks of ostriches and some guanacos, and a soldier was lucky enough to find one day more than a dozen ostrich eggs. These mountains are the 'chasque mahuida,' rarely visited by Buenos Aires people, yet so full of beautiful aspects, of high cliffs, mountains and dales, that it might be called the Republic's Switzerland.

Going so far away into unknown regions, one would naturally expect to meet some danger. Yet nothing of the kind has occurred to me or my party. None of us have seen a tiger, lion, snake, or aguaraz. As to Indians, we have not fallen in with a single one: not so much as a 'boleador' did we see in these camps. Still it is well to be cautious and to keep arms prepared and in readiness.

Up to the present day nobody has brought any cattle out on the Colorado banks, yet I think it could be done with complete success. It is not Nature's fault if man does not benefit by her bounty.

The River Colorado abounds in small islands, which are a few hundred yards long by a hundred wide; but they are of little consequence. They are all formed, as far I could observe, by the shifting river sand, or else cut away from the bank by a penetrating arm of the river. They nearly all contain a few willows and some junks or poor grass, which contrasts forcibly with the juicy grass of the banks; in fact, I did not see a single island which it would be worth while to cultivate and stock, the dry river sand covering most of them. Besides, they are all likely to suffer from inundations at high water time, and it is, therefore, very difficult to fix upon their exact size. I saw no animals on any of the islands, with the exception of some papagayo birds, which were screeching down on us as we passed along.

When we neared the mountainous regions the islands changed their character and became rocky points or a cluster of stones, in some instances of very picturesque form, but totally devoid of vegetation. It was very easy to recognise from the river bank every feature of the islands, since the width of the channels seldom exceed 100 yards. In its generality, the river's width is 120 yards, but where an island obstructs its course, the distance between the two banks increases to 300 or 400 yards. In this channel the river flows with a velocity of one-half or nearly three-quarters of a league, that is to say, with a velocity of about 50 metres per minute. In summer time, when the snow melts in the sierras, the surface of the river rises about one metre and the flow is very much heavier; nevertheless, since the river banks as a rule are two or three metres high, the river does not overflow and does not injure the plain on its banks. In this respect the river Colorado is very different from the Rio Negro, and this is one reason more why I can advise, with perfect security, the bringing out of acttle to the Rio Colorado.

The bed of the Colorado lies very deep below the surrounding heights. In some places I saw the bluffs of the higher land and at an elevation of 30 metres, in other places at a height little less, but where mountains had collected on the tableland, the summits reached above 200 metres in height from the river, but then the plain behind these mountains sloped down again to the general level. On the northern side of the river I saw a very high, sharp-pointed mountain. It must have been at the distance of about 15 leagues from the river, and from its peculiar shape my men called it the 'pico palo.' It loomed very peculiarly above all the surrounding heights, and we were constantly looking for it, but only got a good view when we ourselves were on the summit of the 'charqus mahuida.

The River Colorado is not navigable in its present state. Its numerous bends, shifting sands, rocks and trees in the current, and its shallow water, prevents even the smallest craft from moving in it with ease.

At some future period, when its western boundary camps becomes well settled upon, it would be easy to improve it by a series of locks, but similar projects are at present out of time. For variety of scenery in its upper course it ought to be better known than what it is. Some of its lateral waterfalls are splendid, and it will be particularly interesting to visit the pass when the river winds its way through the sierras Cherque Mahuida.

I remain,
Yours truly,
*Surveyor.*

## EDITOR'S TABLE.

Our valuable telegraphic 'collaborateur' Havas will require to shake himself together, if he wish to keep pace with the new telegram service of our colleagues the *Nacion* and *Patria Argentina*, both of which papers published highly important news from Europe yesterday: Another attempt of the Nihilists on the Ozar's life has, happily, been frustrated, and the Russian police have at last pounced on the Head Centre of the Nihilists and captured the leaders. In Zululand Cetewayo's brother is preaching a crusade against the British. In Spain a terrible gas explosion at Madrid, awful floods in Murcia, and a terrific conflagration in Valencia. Further serious riots have occurred in Ireland. The Emperor of Austria and the King of Italy are to meet to-day at Vienna. The old world appears to be in a truly comfortable state all round, whereas in America things now look bright everywhere, except in unfortunate Peru.

The Admiral Brown will be in port this morning, and we hear of official visits, banquets, and all kinds of fun projected in connection with the arrival of by far the best fighting ship in South America.

We are requested to make enquiries about Mr Richard Bowcher, of Carne, St. Anthony, Hilsbon, Cornwall, who was employed in the year 1871 as coachman, by the late Mr Giebert of Fray Bentos, but left t[illegible] in 1873, it is believed for Porongos. His aged father at home is most anxious for news of him, as he has not heard anything about him for ten years.

We are happy to hear that the recent reports of the rain having destroyed the wheat crops in the Santa Fe colonies are, if not all bosh, the next thing to it. Corn speculators invariably see Blue Ruin in every drop of rain that falls at this time of year, hoping to give prices a lift.

The Grau French Opera Company says good bye, sweet Buenos Aires, good bye! to-night in the opera of Carmen. For the last month this really excellent company has been singing to a 'beggarly account of empty benches.' High life did not take kindly to it after the first few nights, so it made no money. Respectability went to hear the company with a nervous fear lest a 'can-can furioso' might burst on its vision at any moment when least expected, and, perhaps, because no such thing occurred, stayed away after the first week. We are happy to hear that the Grau Company will return here next season.

There was a terrific diligence accident at Azul on Monday. The coach upset when crossing the Arroyo Bachicha, and the passengers had to scramble out through the windows and swim to the bank, some of them who never swam a stroke before acquitted themselves like ducks, or Captain Boyton. Sheer presence of mind. It is a miracle they were not all drowned like rats in a trap.

At the risk of inciting an army of aspiring embryo composers to make a dash at the Public Treasury for funds to enable them 'to complete their musical studies' in Europe, we publish the following about the great maestro Verdi, the risk being trebly hazardous owing to the well-known fact that no River Plate composer, or rather would-be composer, is ever, like Verdi, 'of a retiring nature and timid and modest as when a boy.' 'Verdi composed a 'Stabat Mater' when he was but 13 years old. In 1838 he made application for admittance into the Milan Conservatory, and offered as credentials all of his earlier compositions, but he was told very abruptly that he had not the slightest talent for music. He was almost crushed by this disappointment, but he still persevered, and received instructions through a musician at the Scaa Theatre. Verdi was always of a retiring nature, and even to this day he is as timid and modest as when a boy.'

The *Revista Medica* announces that the National Board of Health are adopting precautions against the yellow fever season. This is most agreeable intelligence. As a rule in this country precaution against anything, from yellow fever to a cold in the head, is never taken till the evil is upon us, but we are glad to see that a new leaf is being turned over.

We received yesterday from Chile a beautiful half length portrait of Mr Santa Maria, the new President of Chile. He is a fine-looking man, quite like a 'pair de France.' The only fault in his face is that he has not enough chin, but there is no lack of cheek.

We lunched yesterday on a perusal of the 'menu' of the banquet to the Brown's officers, which is published by the *Telegrafo Maritimo*. Such a feed! Roca scallops, Porteña cutlets, Commodore mashed potatoes, historic ham etc, etc. Amongst the wines 'gentle Leoville' played a prominent part. Commodore Cordero, in his speech, said that all the officers swore to blew up the ship rather than ever haul down her flag.

The latest papers from Europe announce that earthquakes have recommenced in Chios, where there was such deadly work last year.

Sarah Bernhardt is now in Madrid, putting the Dons 'off their heads.' What about her coming out here for the Calle Florida Theatre? Pure 'canard' we take it.

The flood in the Uruguay is so tremendous that the East Argentine Railway is under water and the trains stopped. In Concordia large schooners are moored in the streets, and the people go about in boats. A pleasant state of things.

There was quite a flutter in Argentine circles yesterday owing to the new Legations proposed by the Budget Committee of the National Chamber of Deputies. In future this republic will be represented abroad by Plenipotentiaries in London, Paris, Berlin, Washington, Rome and Madrid. Wont there be competition for these diplomatic plums? The easiest and most agreeable life under the sun is that of diplomatists—nothing on earth to do except to keep their eyes and ears open and their mouths shut, and good fat pay for doing it.

The Chief of Camp Police is reported to have selected five of his most stalwart men at Tres Arroyos and sent them after an equal number of famous bandits in that district, with orders to capture them dead or alive. The Chief is unnecessarily chivilrous and far too confident in this matter. These Horatii and Curiatii are too evenly matched to make the ends of Justice sure, and it is as likely as not th[illegible] ten will remain on the field of battle.

Captain Bernardino Rivadavia, of the Artillery, died at Bursaco the other day, from the effect of a fall from his horse; he was son of the great statesman whose Centenary we celebrated so recently.

We feel much pleasure in saluting Mr Grant, of Pineido, who is in town for a few days.

Immigration is better this month than last. Up to yesterday 3023 new hands had arrived from Europe.

The Provincial Government has put a stop to the practice of advancing their salaries to the employees. For the future no Government clerk will get in advance as much of his salary as would take him home in the tramway; only in case of sickness will a paper dollar be advanced. We may expect to hear shortly of a deal of sudden and severe illness amongst the Government employees.

The Labour Office has sent 200 navvies to Tucuman for the extension of the railway to Salta.

Santa Fe seems to be blessed with a considerable supply of inventive genius in the agricultural line. In addition to inventions in the recent Cattle Show from that quarter, Mr Albert Arrechea has invented a steam harrow for which he asks a patent for 15 years, and he ought to get it 'pour encourager les autres.'

Don Benito Nazar, the well known auctioneer, died of heart disease yesterday. We sincerely sympathise with his family. The funeral takes place to-day from 494 Chacabuco.

There will be a grand review at Palermo on Tuesday next, in presence of the President of the Republic, on the occasion of the distribution of prizes to the boys of the Military School.

Wonders will never cease. In Tucuman they have absolutely shot a murderer. The Governor there is made of sterner stuff than his colleagues of Entre Rios and Corrientes, and can sign a just death warrant with a steady hand and consciousness that he but does his duty.

The people of the Socorro parish have got tired of the gypsy camp established opposite the Italian Exhibition building, and are about to petition the Municipality to ship them anywhere out of the world, as they are in such distant relationship to godliness that the connection is not visible to the public eye, and they make the neighbourhood unsavoury.

Both houses of Congress have now passed the Bill for paving all the streets of the city between Calle Callao and the river. Better complete the Drainage Works before the paving begins. 'Adoquin' is to be employed, yet it is now universally acknowledged that wooden pavement is by far the best and most lasting of all. Are we about to perpetrate another costly blunder?

The increase in the population of the province since 1869 is really tremendous. The Census Commissioners favoured us yesterday with the figures of the 38 partidos already taken. They show 252,919 souls, against 157,877 in 1869.

## ON 'CHANGE.

Oct, 26th

| Patacons | 25.45 |
| Cedulas A | 98½ |
| National Bank Shares | 122 |

The gold market ruled five cents firmer to-day than yesterday, and for the end of the month a very large business was done, and some brokers sold lots as large as a hundred thousand pats. Yesterday afternoon a very heavy sale of gold for the end of the month was made by the Government broker, but we only heard of the business to-day, 250,000 pats at 25.40. The gold market, however, is far too steady to admit of much speculation; the Bolsa to-day is like the Oficina de Cambios, and all speculation is centred in Nat. Bank Shares, which for the moment absorb everything.

Gold opened for cash and held fixed all day at 25·4; cash sales, 36,000 pats For end of month 570,000 pats sold, beginning at 25.40 and closing at 25.45, and for Nov., Dec. and January sales at 25.45. Total day's sales, 676,000 pats.

Cedulas rule both dull and weak, almost nothing doing; one small sale cash at 98½ and another small sale for end of month at same rate.

But Nat. Bank Shares still hold the whole market; the sales to-day foot unto 11,900 shares, of which but 100 shares cash at 122½, 122. For end of month no man on Change can say how the count stands, whether over-bought or oversold. Two brokers who keep the accounts daily differ in their opinion, but the rumour is that one heavy holder has sold out and has come out of the speculation winners 50,000 pats. This share market is so highly speculative that it is impossible to offer an opinion; those, however, who have ready money to pay and hold their shares have always the best chance of success. Large orders to purchase the stock yesterday at 120 were given, but they could not be filled. Prices for end of month began at 123 and closed at 122½, sales 8,100 shares, and for Nov. 3,700 shares sold, starting at 123½, touching 124, and closing at 123½.

It was an ounce on Change to-day that the salsadero fauna has already begun in Montevideo; the belief in this market is that this season we shall have the greatest 'novillada' ever known in the R. Plate.

The sales at the ring were—
For cash 36,000 25.45
For Oct. 31st 750,000 25.40-45
For Nov. 30th 30,000 25.45
For Dec. 31st 20,000 25.45
For Jan. 31st, 1882, 20,000 25.45
Sales, 676,000.
Cedulas—
For cash A 2,000 98½
For Oct. 31st A 5,000 98½
Sales, 7,000.
Nat. Bank Shares—
For cash 100 shares 122½-122
For Oct. 31st 8,100 shares 123-½-122½-½-½
For Nov. 30th 3,700 shares at 123½ ½-124 to 123½
Sales, 11,900.

The interest in land sales is greater than ever; we heard of sales made to-day at Mr. Rom's Office of Land that cost a few weeks ago $25,000 m|c per league in certificados, the land had to be located, and is now sold for $70,000 m|c per league. A magnificent property in the provinces on the Government line of Railway running from San Luis to Mendoza with cattle and tenants on the land, and magnificent montes of hard wood, 30 square leagues, is now in the market, offering at a ridiculously low price. Rio Cuarto lands at 2,000 pats per league are also offering. In fact for those who have the money, there never was a greater opportunity for buying these lands at such low rates.

As we are now entering the wool-season everything helping, directly or indirectly, to forward this trade, the great source of our national wealth ought to be heartily welcomed. Messrs J Kayser and M. Eckell, of the well-known firm of Messrs. Moller & Co., have undertaken the difficult task of publishing the MOST EXACT "Wool-Calculations for the sale in Europe" as the little book is termed, which eclipses every publication of the kind hitherto known. It is a 'vademecum' for barraqueros, wool exporters and in short for all who have to do with the wool-trade, and it ought to be on the desk of every commercial man. The book is very nicely and compactly arranged and gives you calculations for the sale at Havre and Antwerp—

1st, of wool purchased in Barraca 'a estilo de plaza'
2nd, of wool purchased 'enfardelada', and
3rd, last not least the 'rendimientos'

in a very clear manner. We have carefully examined this little pearl of trade-literature, and congratulate both the trade and the able editors on this complete success. The convenience of this book to the exporter is manifest; he can know by one glance the exact cost of the article at whatever price of purchase, and we warmly recommend Messrs Kayser & Eckell's excellent publication, which may be found at the very cheap price of $50 at any of the principal libraries of B. Aires.

At afterhours gold ruled hard spite of all that was sold during the day, and buyers at 25.45 for Dec. and Jan were offering, few sellers. We hear that at the end of the month there will be a heavy gold delivery, as the gold is being sold to pay for produce.

Bank Shares dropped at afterhours to 121½ and then rebounded to 122. The news was that to-night Congress takes up the question of the 450,000 fuertes remuneration to the Bank for non gold payments; they say on Change there is a majority in favor and that it will be passed.

The sudden death of Mr Benito Nazar was announced; deceased was of the leading firm of Nazar & Co., and only 31 years of age.

£25,000 in sovereigns arrived this morning from Montevideo for Don Gregorio Torres.

The sale of the well known Lamas quinta on the Calle Santa Fé, 5 squares of land with house and large establishment, for 20,550 pats. This splendid property was bought in the year 1868 for 4,000 pats gold and the sale fell through, it was then purchased on credit for 9,000 pats, and a large amount of money spent in repairing, redecorating, &c.; the house some 10 years ago was considered one of the finest residences out there.

Mr J Kenny, of Cordova, was warmly welcomed on Change by his many friends, also Mr Ryder, who has just arrived back from Europe.

The estimated killing of the new faena for this Province is 350,000 head to 400,000.

The following are the prices realised for the fine imported animals sold by Messrs Bullrich and Co. to-day:—

Durham cow at $10,500
Durham bull Iron Duke, 22,500
" The Miner, 8,500
Durham cow Water Witch, 13,000

The Provincial Bank discounted to-day six millions, and as yet has not altered its exchange rates

Exchange in the market holds at 4·9½, and 5,25, a large business in francs is spoken of on reserved terms.

Quite a movement in the Lincoln camps, new partido, has sprung up lately. These lands are but 85 leagues from this city and specially good. People wanting cheap camps and good should purchase there. Among the prominent parties who have recently bought in this section we note Mr Robert J Runciman, of the well-known firm of Runciman & Co.; he has secured some choice lots. It is astonishing how these Lincoln camps have improved and are improving in value.

Advices from the Uruguay this morning give the following:—

We are having a very wet warm spring, and consequently the camp in general is in splendid condition. Nothing like it been seen for many years; there is every prospect of an early fattening, and a good season for both estancieros and saladeristas On the other hand the wheat is almost destroyed and wool will be very light. The river has been extraordinarily high, but is again falling The water was within a foot of the level of the moles at Liebig's.

The mails from New York bring the following:—

"A despatch from Ottawa, Ont., says that Mr W D Bentley, Consul General of Brazil, has returned from France, having been successful in forming a new steamship company, to run a line of steamers between Canada, Brazil and France. The President of the new company is Mr W G Dunmore, regent of the Bank of France, Paris, and President of the Societe Generale. Four vessels of 2,000 tons each have been chartered until the new boats lately ordered are ready. They will make monthly trips from Havre, calling at St. Thomas, in the West Indies, as well as at Montreal in the summer, and Halifax in the winter, en route to Rio Janeiro. The first vessel of the line will leave France at the end of this month, and regular trips will be made thereafter. The new line has an annual subsidy of $10,000 from France, $50,000 from Brazil, and $50,000 from Canada."

People who hold large tracts of land in this country will read with interest the following, which we extract from a late New York paper:

"European Syndicates within the past week are reported to have committed themselves to two more important undertakings on this side; one, the construction of the Canadian Pacific, and the other the purchase of an immense tract of land in Alabama. The so-called Ehrlander syndicate, which has been so prominent recently in a variety of Southern enterprises, is credited with the latter, and their purpose is said to be the development of the cotton and other industries of all that region. We may also add that a party of English capitalists are reported to have purchased, within a day or two past, some 40,000 acres of land, mostly woodland, situated in Georgia. We are told that the buyers of this property are now in New York for the purpose of purchasing about $500,000 worth of Southern lands in other States.

"English capital is finding its way with great liberality into Western land enterprises of various kinds. The latest is the purchase by a Syndicate headed by Close Bros of a tract of land 60 miles square along the line of the St. Paul & Omaha, 30 miles East of Sioux City, Nebraska. Contracts have already been made for the construction of 160 houses, and the colonists who are to occupy them are to be sent out as soon as these are well under way. They are to consist chiefly of farmers, who propose to solve the troubles me question of American competition by turning American agriculturists themselves There are many similar English and Scotch colonies established within the two or three years past, in Iowa, Wisconsin and Minnesota, and it is understood that, eschewing the lofty ideals of the Rugby [Tennessee] experiment, they are all doing well."

An American merchant has favored us with the following:—

"Better prospects for California wool.—California wool, says the San Francisco *Journal of Commerce*, is increasing in value year by year. The results of the increasing care taken by growers and by buyers in this city, in sending a great part of their clip in a cleaned state East, are day by day making themselves more manifest. One result of this is seen in the enhanced price commanded by California wool in the markets of Boston, Philadelphia, New England in general, and New York. And as more care is taken in breeding and preparing for market, it will advance to a relatively higher standard. The same remarks will apply as well, in a manner, to the wools of Oregon and the Territories of the Pacific. Year by year the quality of our wools will improve, as the large States get sub-divided, and as sheep raising is carried on by men of moderate means, who will take care of 300 to 400 sheep each. These will devote more care and attention to the fleece; the result being an improved breed of sheep, an improved quality of wool, and better prices.

"The increasing lumber trade of the Gulf States.—For the first time since many years, says the New Orleans *Democrat*, the hundreds of small vessel that ply along the gulf coast are all engaged, and the tariff of freights has materially advanced. As an example of the prosperity that has visited this vast maritime industry, we cite the charter of the American ship John Watt Capt. Swetzer, to carry a load of lumber from Mobile Bay to Corpus Christi, Texas. This cargo will amount to at least 300,000 feet, or at least 30 schooner loads. During the last year the movement of lumber along the gulf coast has increased to nearly double the proportions it assumed the year before. Numerous schooners, some with a capacity of 100,000 feet, have been engaged in transporting timber and building materials to Mexico, to Central America and to the various islands of the Antilles and the Caribbean archipelago. The great impulsion given to house building, and the consumption of Southern lumber by the railroad boom that has been raging in Texas for the last year, is so great that it is almost impossible to estimate its present importance, or that which it will assume next year. All the mills on the hither side of Lake Pontchartrain and those situated on the bayous that communicate with the Mississippi river; those in Mississippi, Alabama and in Florida have, during the past few months, been worked up to their full capacity. The number of these localities has hitherto been consumed at home or has been sent to Cuba and other islands of the Great Antilles. Lately Lake Charles and Orange, which districts have enjoyed an almost complete monopoly of the coast lumber trade of Texas, have been unable to fill the demand, and buyers have been compelled to resort to the markets of Alabama, Mississippi and even Florida."

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Dielh. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

51—SAN MARTIN—51
El Viernes 4 de Noviembre
A las 2 en punto de la darte

Venderemos por el precio que esceda de la pequeña base que se le ha fijado y por orden terminante de su dueño.

Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantee mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.

Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pelicura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, reconocidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.

Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.

Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y haciendas y totalmente alambrado.

A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin esepcion sus estancias pobladas y trabajando.

A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guamini y Puan, pasando por su cento la galera que va a Carhue.

Para probar elocuentemente que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr Ataliva Roca lo adquirio hacen 3 años, cuando recien se abrio la primera suscricion por cuya razon el num. de orded del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que eligieron por los escelentes informes que tuvo.

Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos saladeros que se construyen alli.

Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.

En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.

Los titulos son de primer orden.

Los linderos y su ubicacion les siguientes. Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O. con el lote 35 de L A Burgos; por el S. E. con el num 8 del mismo Gonzalez Chaves.

El cte 6 y el 36 prima [que es el que esta en venta] linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa imrenetable.

NOTA—Podemos garantir que no hay expropiacion del Ferro Carril del Sud y que el Gobierno de la Provincia se acaba de arreglar con la empresa, para concluir la linea del Azul hasta Bahia Blanca a principio del año 1884.

Mas informes a nuestra casa San Martin 51.

El Jueves 3 de Noviembre
A las 3 en punto de la tarde

Venderemos por un precio que exeda de la infima base fijada y a dinero de contado el esplendido lote de 3 1|3 leguas de magnificos campos en el mas floreciente partido Lincoln.

El campo que se ofrece es por la clase de sus pastos, topografia etc, inmejorable por lo que nos permitimos llamarla atencion de los interesados sobre la condicion liberal de la venta y lo insignificante de la base.

La 'Revista de Ganaderia,' en su ultimo numero hace notar las ventajas de los campos en este Partido y dice que el hermoso estado de ellos lleva la riqueza del pais con admirable prontitud.

El campo esta amojonado y mensurado prolijamente, y las ventas a realizarse de campos a 6 leguas del que ofrecemos, tienen por base 160,000 m/c.

La condiciones de la venta son ventajosimas pues hay 8 letras con el Gobierno por valor de 226,800 pagaderos en 8 años de los que se descuenta un 25 o/o si se pagasen esas letras al contado.

Los titulos de propiedad son perfectos

El campo tiene por linderos a los Srs Casey, Young, Cruz y varios otros.

## TO NAHUEL-HUAPI.

*(From the Nacion)*

Patagones, Oct. 7th 1881.

On the 28th September the Villarino left Buenos Aires with numerous passengers, and your correspondent. After saluting the Buque Escuela the steamer glided swiftly through the placid waters of the River Plate, and gradually the large city of Buenos Aires dwindled into a speck on the horizon, whilst the oscillations of the ship made many uncomfortable and seek the secluded regions of under-deck.

The next day we sighted Cape Corrientes, and on the 30th the Sierras de la Ventana rose like a blue cloud in the distant horizon. As we neared the coast we saw Monte Hermoso. At Puerto Belgrano, the spirals of smoke rising in the atmosphere drew our attention to the Bermejo. The Bermejo is commanded by a gallant and instructed mariner Captain Howard, who is now laying the foundations of our future military port. The Villarino stopped and handed to an officer the correspondence for the gun-boat. We saw here the Toro, the Carhue, and the pontoons Manuelita and Adolfo Alsina. All the cargo of the Villarino for Bahia Blanca was transhipped into the Adolfo Alsina.

The passengers of the Villarino bound for Bahia Blanca, and they were numerous, stepped on board the Alsina also. Nobody can contradict the growing importance of this harbor, but many important improvements are necessary before it can be made a safe and convenient one for our fleet.

On the 2nd October we hauled up the anchors and steamed for Patagones, crossing the bar easily at the mouth of Bahia Blanca. As we departed the Bermejo entered with the Manuelita in tow.

The 3rd of October dawned on us with most unpropitious and foggy weather, impeding any reconnoissance of the coast. At 6 a.m. we were in front of the 'chunes' that stretch from Barranca Sur to the 'Falsas Hermanas,' disappearing in the San Matias Gulf. We were soon at the bar of the Rio Negro.

The pilots hoisted their signal of land approach, informing us of our being sighted: but although the bar was passable and the wind favorable to them, they refused to give any further signs of life.

As both wind and billow became frisky we nowise relished the prospects of anchoring outside, or heaving anchor in case of bad weather in order to make for the ocean. But there was no remedy and the Commander of the Villarino gave orders to drop the anchor. During the night we were all much shaken, but more so on the morning of the 4th when the repeated reports of the cannons on board gave us an idea of Commander Spurr's expressive language to the pilots ashore. Sergeant-Major Spurr's indignation was to the point, since the bar could not be in a more favourable condition and the high-tide time approached: the pilots seemed to be quite unaware of a steamer being outside.

No sooner were the cannon reports heard than up went a signal from the coast on the top of a mast 'Come in—high-tide up.'

You can imagine our glee: the anchor was soon up and the steamer at the bar, when up went another signal 'pay attention to land-signals'. Immediately a pilot with all canvas on set out, but got somewhat discouraged in the middle of the way and dropped anchor.

Commander Spurr then headed the steamer towards the bar, passing it in a few moments. We all complimented our amiable commander on his ability, and it is not in vain that we consider him a sea-dog of the real stamp. Captain Mendez's land signals are to the point, and we congratulate him on the fact. Let these short lines stimulate the modest marine Sub-delegate of Patagones: he has done much good to the navigation interests here by his signals.

At 9 a.m. we moored alongside the Patagones wharf, and I am preparing to leave to-morrow early in the Rio Negro, under Colonel Obligado, en route for Nahuel-Huapi. There is certainly no lack of goodwill to reach the great lake, since both officers and mariners have set both heart and body to work at the task. The officers of the Rio Negro are the same who last year reached the Vuelta de Desengaño in the river Limay. Dr Rivas has joined the expedition. Anything that may interest your newspaper will be duly sent.

## BRITISH CAPTIVES AND FOREIGN BRIGANDS.

A return has been issued of British subjects who have been taken for ransom by brigands in foreign countries since 1860 showing, among other things, the names of the victims, the places where the outrages were committed, the amount of ransom demanded and paid, and the source from which it was derived, the period of detention of the captives, the expenses attending the negotiations, and the compensation made by the Governments of the countries in which the outrages occurred. The list comprises the names of 29 persons including 14 distinct captures. Three of these acts of brigandage took place in Mexico, 2 in Italy, 2 in Greece, 4 in Spain, 1 in Sicily, and 2 in Turkey.

The first captive is Mr William Rabling, who was taken in November, 1863, near Pachuca, in Mexico, and for whose ransom $6,000 was demanded. His detention lasted about 3 weeks, and at the end of that time his friends obtained his release on payment of $3,400 and 12 muskets. In July, 1864, Mr Beale was captured near Florence. His case was exceptionally fortunate. 12,000 scudi was the sum demanded for his ransom, but he was released the day following his capture without any payment, his guards being under the mistaken impression that the amount had been obtained. Mr and Mrs William Moens, the Rev J C M Aynsley and Mrs Aynsley were taken near Battipaglia, Italy, on May 15th, 1865. The ladies were released the same day, and Mr Aynsley on the day following to arrange about the ransom, which was fixed at £8,500. Negotiations carried on by the British Consul at Naples and the friends of the captives, at a cost of £44 10s to the former, and £800 to the latter, resulted in the release of Mr Moens on August 25th, on payment of £5,100 by the friends.

Lord John Hervey, the Hon. H. Strutt, and Mr Coore are the next victims; they were taken in Arcanania, Greece, on December 8th, 1865, and on the same day the two first were released in order to obtain £3,000 as ransom. The amount was paid on the 15th, when Mr Coore was at once set at liberty. Mr John D Mirrilies was taken prisoner near Irapusto, in Mexico, on the 15th November, 1866, by an armed band claiming to be a portion of the Liberal forces of General Antillon, but he paid the 3,000 dollars demanded of him, and was only detained about 4 days. In each of the above instances the ransoms were paid by the captives, and no repayment or compensation was made by the Governments of the respective countries where the outrages occurred.

On the 19th December, 1869, Mr John Francis Furber was captured near Guanaxato, Mexico, and on the following day his body was found with an explanation attached to it that he had been murdered for having refused to ransom his life for 500 doll. No compensation was ever exacted. On the 11th April, 1870 a party, consisting of Lord and Lady Muncaster, Mr E H C Herbert Mr F G Vyner and Mr and Mrs Lloyd and child were captured by Greek brigands near the bridge of Pikermes, about a dozen miles from Athens. The enormous sum of £50,000 was first demanded for ransom, but this was afterwards reduced to £25,000 and an amnesty. Lady Muncaster and Mrs Lloyd and child were released the same day, and Lord Muncaster was sent back on the 13th, to arrange about the ransom. The English and Italian Ministers opened correspondence with the brigands, and the negotiations were afterwards carried on by a representative of the Greek Government, but they were not carried to a successful issue, and on the 21st April Mr Herbert, Mr Vyner, and Mr Lloyd were murdered. In this case the King of Greece gave Mrs Lloyd £1000 for her immediate wants and the Greek Government afterwards granted her an indemnity of £10,000.

Messrs. John and Anthony Bonell were captured in Spanish territory, near Gibraltar, on the 21st of May, 1870. The sum of 27,000 dollars was demanded and advanced by the Governor of Gibraltar, and both captives were released after a short detention. The amount of ransom was subsequently repaid by the Spanish Government. Mr. and Mrs. Robert Rankin and Mrs. Taylor were taken near Denia, Spain, on the 18th of March, 1871, but at once released on payment of £200. Mr. Arthur Haselden was captured near the Rio Grande Mines, in the Sierra Morena, Spain, on the 3d of July, 1874. Four millions of reals (about £40,000) was the sum first fixed as a ransom, but this was soon reduced to a quarter of the amount, and after nine days' captivity Mr. Heselden was released on payment by his brother of about £5,000. Mr. Edward Rowse was captured on the 3d of May, 1875, near Hindelacencia, Spain, but was only detained for a few hours, while his servant fetched 100,000 reals (about £1,000), which he agreed to pay for his liberty.

On the 4th of November, 1876, Mr. Forester Rose was made prisoner close to the railway station at Lecara, near Palermo, Sicily, and various demands, from £5,000 to £2,000 made for his release. Negotiations were carried on by the captive's brothers, who eventually obtained his liberty for about £1,600, but they estimated their expenses at 20,000 lire, besides the injury done to the firm by suspension of their business, and they claimed 126,000 lire (about £5,000) from the Italian Government. Neither in this instance, however, or in either of the three previous ones, was any repayment or compensation ever made. The two last cases mentioned are those of Colonel Synge and Mr. and Mrs. Suter and child. In both these instances the ransom—about £11,000 in the first case and £14,000 in the second—the money has been advanced by the British Government, but the cases are marked 'not concluded.' Should these amounts not be repaid by the Turkish Government or by the relatives of the sufferers, they will be the only instances in which the cost of liberating captives from brigands has fallen upon the British Government.

Dear Sirs,
I have been using your "Golden Fleece Dip" for the cure of scab in sheep during the whole year and I have not seen its equal in these parts.—It is an effectual and rapid cure, it not only destroys the scab in a very short time, but soon produces a new growth of wool.—
I have delayed writing you sooner in order that I might be the better able to judge of the effects of the medicine and to compare it with the remedies used by other sheepfarmers, none of whose flocks are at all so free from scab as mine, although they have been working far more constantly than I, to keep down scab, as regards its cost, it is the most profitable of any I have ever used or know of.
You are at liberty to use this as you may see fit and remain
Dear Sirs,
Yours truly
WILLIAM TUMBELTY.

HOWARD'S CELEBRATED MACHINES

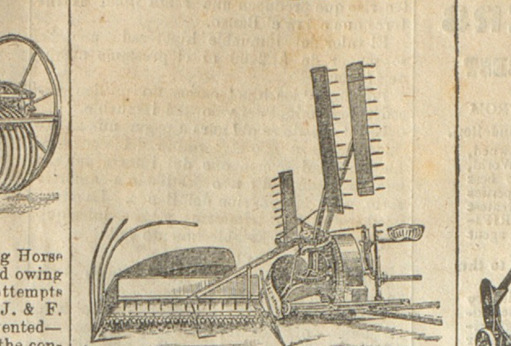

Howards' Self-Acting Horse Rakes.

The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extraordinary success various attempts have been made to imitate them, but J. & F. Howard's simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

OOOO, 28 teeth, 5? in. wrought wheels, 8½ feet wide, weight 5¾ cwt........
OOOO, 22 teeth, 52in. wrought wheels, 10 feet wide, weight 6 cwt..........

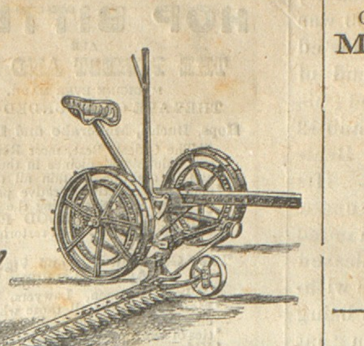

Howard's New Patent Simplex Mower.

J. & F. Howard's Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. Howard's patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt..............

Howard's New Patent Simplex Reaper.

J. & F. Howard's Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt ........

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.
